

# WORLD WAITS FINAL RESULTS

Fighting Around Port Arthur Continues With Unabated Vigor on All Sides.

## REPORTS OF SEA BATTLE COME IN

The Japanese Continue to Surround Kuro Takin in the North-No Let-Up in Hostilities Today--

Reports Meagre.

(Special by Scripps-Mellae.)  
Chefoo, Aug. 20.—A rumor is current that the Japanese have been repulsed at Port Arthur.

Call All Officers.  
St. Petersburg, Aug. 20.—The czar issued a Ukase summoning to the colors all the reserve officers in the empire.

Finest the Diana.  
London, Aug. 20.—A dispatch from St. Petersburg says the Russian cruiser Diana concerning whose fate there has been considerable anxiety has been seen off Hong Kong.

Desperate Fight.  
Chefoo, Aug. 20.—The Japanese consul at Tien Tsin has just arrived and says today's assault on Port Arthur is the last of the Japanese effort to which the recent battle was the preliminary. I fully believe Port Arthur will soon be in our possession.

Has Arrived.  
St. Petersburg, Aug. 20.—It is reported that the Russian cruiser Novik, which left Tsing Tau after taking refuge there eighteen hours, arrived at Korakoff at port on Island Saghalien.

Flag Ship Sunk.  
Chefoo, Aug. 20.—There is a rumor current from Russian sources that Togo's flag ship has been sunk. There is no confirmation.

More Troops.  
St. Petersburg, Aug. 20.—The minister of war to order the further mobilization of troops in the districts of Kieff, Moscow, Kazan, has given commands.

Are Advancing.  
Tokio, Aug. 20.—The Japanese yesterday occupied Anshunghen half way between Liao Yang and Hai Chong. The Russian forces in town retreated toward Mukden.

## CYCLONE STRIKES NORTH ST. LOUIS

### STORM COMES WITHOUT NOTICE

Means of the Injured Rent the Air Almost Before the People Have an Opportunity to Realize What Has Happened.

(Special by Scripps-Mellae.)

St. Louis, Mo., Aug. 20.—For the second time in less than a decade St. Louis people were terrified by a death-dealing tornado Friday afternoon. This time it was North St. Louis that was torn and twisted and turned in a moment into heaps of debris, whereas it was that portion of the city south of the business center and extending from the river to the western limits that was laid waste by the great tornado of 1896. In Friday's storm two persons were killed and twenty were injured.

Great Force of Tornado.  
With a roar like a thousand cataraacts a cloud of blackness of mid-night feared itself above the horizon and rushed in from the southwest. Suddenly from the center of the swirling mass an ink appendage shot out until its tip reached the ground, and within the radius of its suction buildings crashed and crumbled, giant trees were uprooted and thrown together in great heaps, telegraph poles were snapped at their base like plumbstones and missiles were hurled through the air as by the force of a terrific dynamite explosion.

The storm came and passed so suddenly that the means of the injured broke the stillness that followed the roar of the elements before the populace realized what had happened. Women screamed when the danger was over, and terror-stricken men hurried their families into cellars when absolute calm had settled upon the stricken district.

List of Dead and Injured.  
The casualties were as follows: John Ellington, a boy named Joe.

William Bigger, bruised; James Crosby, broken hip; William Dittke, broken leg and arm broken; William Fouché, leg broken; W. Frick, scalp wound; Jacob Harnette, shoulder dislocated; W. H. Langan, cut and bruised; William H. Linham, badly cut; Louis McCullin, leg broken; Edward Pulpson, badly cut; Givewood Powinski, burned by live wire, seriously; Herman Sauerwine, aged 10 years, arm broken and crushed, probably will die; T. A. Summers, bruised; William Yorkie, leg broken; six employees in Niedringhaus rolling mill, not seriously; names not learned.

No Warning of Danger.

So local in character was the tornado that residents of the unaffected portions of the city knew nothing about it until the reports of the damage wrought began to reach them. No rain accompanied the visitation. Earlier in the day a rainstorm had swept over the city south of the path of the tornado, but not a drop had fallen in North St. Louis. The sky had cleared after the rain, and the atmosphere became oppressively hot and murky, otherwise there was no premonition of disaster.

The broken path of the tornado was about a block and a half in width, and extended from Nineteenth street, where the apex of the inverted funnel first touched the ground, east along Angelwood street for a distance of ten blocks, where the tornado jumped to the foot of Bremen street and the river, a distance of eight blocks. Considerable property along the river front was destroyed.

Strikes a Ferry Boat.  
From the bank of the river the twisting mass of cloud jumped to mid-stream and pounced upon a ferry boat, which was sent revolving like a chip in a whirlpool. The boat kept afloat and righted itself up, however, without injury to anyone on board so far as reported.

Then, as though having stopped simply to gratify a spirit of freakish sport, the tornado jumped to the Illinois side of the river at Madison, where several buildings were demolished, including Lelderprang Hall and a portion of the Madison Cooper works, where John Ellington was killed. Severe damage also was done and several persons were injured in Venice and Granite City.

Many Remarkable Escapes.  
The story of the tornado is replete with remarkable escapes, the wonder being that scores were not killed outright by the wreckage caused. A trolley car on Broadway, containing eleven passengers, was struck by six telegraph poles and completely wrecked. The motorman, however, was the only person injured.

The heaviest loss was sustained by a single firm occupied at the Niedringhaus rolling mill, this plant covering two acres. The big smokestack was blown down and a large part of the plant demolished. Six of the employees of the Niedringhaus company were injured.

Roofs Are Blown Away.  
The roof and half of the top story of Summers Brothers Tailoring Manufacturing company's plant was blown away. Part of the roof and two capols were blown from the Roman Catholic Church of Our Lady of Good Counsel. A side of the Buck Stove and Range company's plant was blown in, while the damage to dwellings in the manufacturing district and minor damage of various kinds is extensive. Not a telegraph, telephone or trolley pole in the path of the tornado was left standing.

Damage at Fair Grounds.  
The world's fair grounds escaped the tornado entirely, being five miles distant from the stricken district. At night, however, several hours after the tornado, a terrific thunderstorm broke over the entire city. A heavy wind accompanied the rain, and in this storm the north windows of the Utah state building at the fair grounds were blown in, causing the rain to enter and work damage to carpets and tapestries estimated at a few hundred dollars. The rainfall was .67 of an inch, and the wind reached a velocity of fifty-two miles an hour.

The band stand in the plaza was struck by lightning and was burned before the rain extinguished the flames.

Farmer Dies From Wounds.  
Hopkinsville, Ky., Aug. 20.—Henry Warner, aged 70, who was shot and clubbed by Gip Griffin, a tenant, in a dispute about farm matters two months ago, is dead of his wounds. Griffin escaped.

Two Die at Grade Crossing.  
Cedar Rapids, Iowa, Aug. 20.—Michael Callahan and John Markham of Van Home were killed by a Chicago & Northwestern freight train at a grade crossing near Blairtown.

Bystander Is Killed.  
Logansport, Ind., Aug. 20.—John P. Davis, a saloonkeeper, shot at Martin Patterson. The shot went wild and killed Donigan.

THE BEAR—THIS IS RUSHIN' HISTORY, BUT I'VE SUCH A HEADACHE.

## JUDGE HOLT IS NOT SATISFIED

Will Not Grant the Santa Fe the Injunction Asked For by Them.

(Special by Scripps-Mellae.)  
Kansas City, Kan., Aug. 20.—Judge Holt today denied the Santa Fe a temporary injunction to restrain the striking machinists from interfering with plaintiff's employees. It is said there was no evidence that the company's business was damaged even though the employees of the company were annoyed.

## THUGS TERRORIZE TOWN IN THE OIL DISTRICT

Confederates Take Prisoner From Indiana Marshal and Make Their Escape Through Corn Fields.

(Special by Scripps-Mellae.)  
Marion, Ind., Aug. 20.—The town of Swayzee, ten miles west of Marion, a manufacturing village of 1,000 in the oil fields, is in the hands of thugs and robbers as the result of a race meeting being held by an agricultural society. A number of houses and places of business have been entered.

I. E. Lamb, marshal of Gas City, was called to Swayzee to assist the local officers. A robber who had entered a business house was captured.

Lamb placed him on a train and started for Marion to place him in jail. Six confederates boarded the same train, and when about three miles out of Swayzee the six men overpowered the unarmed officer, released the prisoner, held up the train, leaped off and escaped through a corn field. The officer, train crew and posse of armed passengers gave pursuit, but none of the gang was captured.

All suspicious characters are being arrested and the town is being patrolled with a cordon of police; many of whom are from Marion.

## RENTS WIFE TO FRIEND AT \$50 FOR SIXTY DAYS

Peculiar Transaction by Hungarians at Chicago Is Aired in Court of Justice of the Peace.

Chicago, Aug. 20.—Peter Nelson, who it was stated in Justice Quinn's court, had agreed to rent his wife to John Fitzki for a period of two months for a consideration of \$50, was held to the grand jury in \$500 bonds on a charge of larceny. The charge was made by Fitzki, who is said to have tried of his bargain in a week, returned the woman to her husband and demanded the return of his \$50.

The parties to the case are Hungarians. They could speak no English and what evidence was heard by the court was through the medium of an interpreter. Nelson attempted several times to explain the circumstances, but his attorney interfered.

Fitzki, who lives in the same house with the Nelsons, declared that Nelson had taken \$50 from his trunk. Nelson reiterated through the interpreter that he did not take the money and that he was not guilty. He wanted to explain, but his attorney stopped him each time. After Nelson was held to the grand jury he told the story of the peculiar transaction with Fitzki. The Nelsons came to America about eight months ago from Hungary. Nelson works as a railroad laborer.

## WHEAT PRICES GO UP FLYING TODAY

Touch a Dollar and Sixteen Cents a Bushel on the Chicago Market.

(Special by Scripps-Mellae.)  
Chicago, Aug. 20.—Wild fluctuations marked the wheat markets today. The reports of heavy rains in the northwest and further details of rust damage sent May up to \$1.16 1/4. Breaking all the records of the present rise. Now September opened at \$1.11, dropped to \$1.08 3/4 on heavy profit taking, closed \$1.10 5/8.

## CLOUD BURST AT A TEXAS VILLAGE

The Second Time Within a Few Days That Havoc Has Struck Same Locality.

(Special by Scripps-Mellae.)  
El Paso, Texas, Aug. 20.—In a second cloudburst near Globe, Ariz., yesterday afternoon Charles Sims, Mrs. Hurd, Miss Moody, and John Epley drowned. The bodies were recovered.

## LATE TELEGRAPH

(Special by Scripps-Mellae.)  
St. Joseph, Mo., Aug. 20.—On the thousand and fourth ballot Francis Wilson, of Platte City, was nominated for congress today. Fourth district is Democratic.

Gen. Fitzsimmons.  
Chicago, Aug. 20.—General Charles A. Fitzsimmons died today. He was a prominent war veteran and several years commander of the first brigade of Illinois national guard.

Hoar Still Alive.  
(Special by Scripps-Mellae.)  
Worcester, Mass., Aug. 20.—Senator Hoar rested comfortably during the night. No marked change in his condition.

## STATE NOTES

The new Catholic church at Pardeeville was dedicated on Wednesday by Archbishop Messmer. John Lateneche was killed at Chilpeau Falls while trying to board a freight train.

Rice Lake is experiencing a building boom, and a number of fine structures are going up. Residents of Racine and vicinity have suffered severely of late through the visitation of chicken thieves.

Frank S. Komp, a former Kenosha banker, now in jail at Kenosha, asserts that he will be able to secure the \$2,500 bail required by the court today.

Edward L. Kent, charged with the murder of his son Walter, at Stevens Point, has been bound over to the circuit court.

At the next term of the supreme court application will be made for a new trial for "Jack" Holmes, who recently attempted to kill his stepsons, George and Martin Walters, at Appleton.

While saying his evening prayer Thursday night, just before retiring for the day, Nicholas Cavanaugh, one of the oldest citizens of Appleton, was stricken with paralysis and is not expected to survive. Eastern capitalists are planning to build an electric line along the west shore of Lake Winnebago to connect Menasha with a similar line which will be constructed along the east shore. Surveyors are going over the proposed route.

## PRESIDENT GOES TO SUMMER HOME

Left This Morning With His Secretaries and Secret Service Men for Oyster Bay.

(Special by Scripps-Mellae.)  
Washington, Aug. 20.—The president, with a party of secretaries, stenographers and secret service men left this morning at ten for Oyster Bay. They traveled on a special of two cars running on the second section of the regular Pennsylvania train for New York. A number of government officials were at the station to see the president off.

## STORM WRECKS HOUSE AND KILLS ONE WOMAN

Mrs. Margaret C. Beal Is Buried in the Debris of Her Home at Venice.

(Special to The Gazette.)  
Venice, Ill., Aug. 20.—The tornado that swept across the river from North St. Louis late Friday killed one person here, injured ten others and caused considerable damage to property. The tornado was of short duration, but was remarkably destructive in force. Dead and injured:

Mrs. Margaret C. Beal.  
Mrs. Thomas Mitchell, bruised.  
Mrs. Thomas Wheelless, crushed by a tree.

Mrs. Nellie Schmitt, seriously injured.  
John Bennett, son of city marshal; leg fractured.

Wesley Bennett, another son; arm broken.  
Miss Laura Bennett, daughter; cut and bruised.

Minnie Bennett, daughter, aged 3; hip fractured.  
Mrs. Bennett, bruised.  
John Foster, struck by debris.

Mrs. John Foster, bruised.  
The tornado was seen jumping across the river, but almost before a word of alarm could be given it swept into Illinois north of Venice, turned, and the next moment was plowing its way through the streets.

Mrs. Beal was killed by the falling debris of her home, which was blown to pieces. Mrs. Wheelless was the occupant of a houseboat moored along the river, which was crushed by a falling tree and she was seriously injured.

The members of the Bennett family had hurried into a small woodshed, which was demolished, and every member of the group received injury. Trees were blown down and a number of houses were unroofed.

Frank Darling, charged with taking a child from his colored wife in Michigan, and who was caught at Muskegon, is not known at Racine, although that city was given as his home.

Because it is said that clairvoyants who recently visited Appleton are the cause of several prospective divorce cases, the Appleton council has passed an ordinance prohibiting clairvoyants, fortune tellers, or palmists from working in that city.

Bread of the Nations.  
Even the poor in the United States and England eat white bread. In most of the continental countries of Europe rye bread is the staple. The Laplanders have a bread made of oaten meal mixed with pine bark, and the Icelanders make their flour from Icelandic. Banana flour is used in the South Sea Islands.

# AWFUL TALES OF BARBARITY

Non-Union Worker Found with His Eyes Gouged Out in Stock Yard District.

## NO PEACE IN SIGHT, IS THE CRY

President Donnelly Announces the Unions Have a Trump Card Left for Them To Play--Will Surprise Chicago.

(Special by Scripps-Mellae.)  
Chicago, Ill., Aug. 20.—There seems to be no let up in the strike situation in the stock yards district. Each day brings fresh reports of the night's rioting and of acts of violence of both strike-breakers and strikers.

Allen Patten, a colored strike-breaker, was found in the stockyard district this morning at six o'clock with his right eye almost gouged from his head and his left eye badly lacerated. He was unconscious when found and it is not expected he will live. The assaults on strike-breakers by union men and their sympathizers continue to be daily occurrences.

Police Guards.  
While there is a close police guard over the entire district still they do not seem able to protect all quarters at the same time. Reserve platoons are kept at all the stations in the district and down town departments have orders to furnish men on a rush call.

No Peace in Sight.  
President Donnelly said this morning that there seemed to be no peace in sight. He also said that when the people of Chicago learned the full import of the mass meeting of the union leaders in the city held last night they would be surprised.

Go Back to Work.  
Omaha, Aug. 20.—Several skilled butchers returned to work today. It is almost a certainty the firemen and engineers will return to work on Monday.

At Kansas City.  
Kansas City, Aug. 20.—Encouraged by the success of the Chicago strikers, the packing trades council here will apply to the mayor of Kansas City, Kansas, to stop the housing of strike-breakers in the plants. About five hundred are now living in the plants.

He hinted that they had a trump card yet to play. He and his lieutenants left this morning for the western points to investigate situations there.

Ask Injunction.  
After a meeting of the packers today it was reliably reported they had decided to ask a writ of injunction restraining the city from interfering in the housing of the strike-breakers at the packing plants. President Donnelly, in referring to the action of the mayor in declaring the packers shall no longer house the strike-breakers, said: "The packers have no trouble in getting men out of the plants and yards, but non-union men will not be able to get places to work."

Will The Committee Dare To Tamper With The Law?

## WILL THE COMMITTEE DARE TO TAMPER WITH THE LAW?

Non-Existant State Central Committee Meets at Madison To Do Governor's Bidding.

(Special to The Gazette.)  
Madison, Wis., Aug. 20.—A non-existent state central committee has been resurrected by Governor La Follette to vie with the supreme court of the state in determining the question of which convention held in Madison May 18 was the regular and legal convention. This was done under the provisions of section 35 of the Wisconsin statutes, which provides that when there shall develop two rival conventions under one call the committee that issued the call shall determine which convention is legal. The old state central committee met here yesterday and fixed the date of September 12 as the time for the holding of the committee trial of the issue of regularity. The secretary of the old committee, Frank T. Tucker, was instructed to notify all the nominees of the two conventions that they will have opportunity to appear before the committee September 12 and make any representations they desire regarding their claims. Appearance will be made by the La Follette ticket nominees, through attorneys, but the stalwart or Spooner faction will take no notice of the matter, claiming that the statute under which the committee assumes power does not refer to state conventions, that the case has now gone to the supreme court, that the old committee went out of existence in May and that it is in fact a factional committee and not competent to try the issues fairly. The supreme court meets again September 6. At this time it is expected that the La Follette faction will demand to the stalwart case, begun in the court August 9, and ask that the old central committee will be allowed to determine the matter.

## NEED THE MONEY TO RUN GREAT ATHLETIC TEAMS

The University Athletic Association Is Thirty Thousand Dollars Behind in Their Accounts.

(Special to The Gazette.)  
Madison, Wis., Aug. 20.—The management of the athletic department of the University of Wisconsin expects that the \$20,000 loss that has been sustained in the past year at Madison will be repaid by the two big games of the schedule this fall at Chicago and Minneapolis. Wisconsin's one big home game is that with the Michigan eleven October 29, but big crowds cannot be counted upon for this contest in comparison with the thousands that will gather at Marshall field on Thanksgiving day and at Northrup field, November 12. It is told by Manager Kilpatrick here that he fully expects to have 20,000 people at the Turkey Day game in Chicago and perhaps 35,000 people at the contest in Minneapolis. The reasons for this are the facts that the Thanksgiving day game in Chicago will be the final great contest on the western gridiron for the season and perhaps the game for the western championship, and that the Wisconsin game is the only big home game the gophers have scheduled this fall. It is expected that Minnesotans from hundreds of miles of Minneapolis will gather at Northrup field to see the traditional arch-enemies of Wisconsin and Minnesota fight it out on the gridiron. These things furnish pleasant contemplation to Wisconsin managers, who are starting several big notes in the face, whose coffers are empty and whose salaries are unpaid and overdue.

REGULARS AND MILITIA BATTLE  
One Man Killed and Three Wounded Near Ohio State Camp.

Athens, Ohio, Aug. 20.—In a pitched battle Friday night between regular and militia, Corporal Charles Clark of Warren was killed and three militiamen wounded, one seriously. The soldiers were stationed at Camp Armistage, near here, where the state militia is in camp, with two troops of United States cavalry. The trouble arose when the provost guard, composed of militiamen, attempted to arrest some regulars who had overstayed their leave. The battle followed, the regulars using their pistols. The town now is patrolled by troops. None of the men has been arrested.

New Bathone Sisters' Chief.  
Louisville, Aug. 20.—Mrs. Lydia A. Monroe of Riverside, Cal., has been chosen supreme chief of the Bathone Sisters. Her competitors were Mrs. Belle Quinn of Galesburg, Ill., the present incumbent, and Mrs. Emma Young of Zanesville, Ohio.

*They are read by every one.*

## VERDICT OF THE PARTY

From the report of the Committee on Credentials  
 to the REPUBLICAN NATIONAL CONVEN-  
 TION, which was unanimously adopted by  
 that convention, June 29, 1904.

Your committee report it to be their  
 final judgment that the convention which  
 elected said John C. Spooner, J. V.  
 Quarles, J. W. Babcock and Emil  
 Baensch as delegates at large, and  
 their alternates at large, to this con-  
 vention from the state of Wisconsin  
 WAS THE REGULAR CONVENTION  
 OF THE REPUBLICAN PARTY IN  
 WISCONSIN, and that the delegates  
 elected by it are the regular elected  
 delegates at large from the state of  
 Wisconsin to the republican convention,  
 and, as such, are entitled to seats in  
 this convention.

**OUR SATURDAY NIGHT.**  
 An Englishman recently wrote an ar-  
 ticle for the Saturday-Evening Post,  
 asking for a topic, "Why America  
 Wins." Among other good things  
 he says:

I have had lately considerable ex-  
 perience of English methods in ad-  
 vertising, and the usual business man-  
 ager is still undecided enough to  
 ask himself that ridiculous question,  
 "How much will it cost?" He does  
 not mind spending a few shillings  
 or pounds, but he draws the line at  
 a large sum; he would sooner sink  
 his shillings and pounds with no re-  
 turn and no profit than lay out his  
 pounds or hundreds of pounds with  
 an absolute certainty of two hun-  
 dred per cent. coming back within  
 a year or two. He asks, "Will it cost  
 much? The American does not, he  
 asks, "Will it pay?" If so where shall  
 I advertise? Suppose I have a school  
 for boys. Where shall I advertise  
 that school? Who decides to which  
 school the boy shall go? For the  
 most part the parents do. What pa-  
 per do parents see? Perhaps the  
 mothers rather than the fathers; but  
 both, if possible. The answer is one  
 that perhaps has not occurred to the  
 Englishman, because he has never  
 asked himself the question. The an-  
 swer may be some women's paper in  
 which the English school master  
 would never dream of inserting his  
 ad. Then the American asks him-  
 self, "How shall I advertise?" with  
 what wording, with what spacing,  
 with what type, and so on? Next he  
 asks himself, "How shall I follow it up?"  
 For how long shall I follow it up, and  
 at what intervals? I have heard  
 more than five business men in one  
 particular branch of trade remark to  
 the effect that they were going to  
 try one advertisement in this or that  
 paper. The absurdity of it—one ad-  
 vertisement! Why the very essence  
 of advertising is repetition: the ham-  
 mer, hammer of constant im-  
 pression. This shows precisely the  
 difference between English and Amer-  
 ican ways. We are only beginning to  
 learn the art of advertising; we are  
 only beginning to learn the art of  
 practice and preparation.

The difference is largely expressed  
 in the two questions, "What does it  
 cost?" "Will it pay?" While the first  
 may be the question that governs  
 business life in England, it is safe  
 to say that it is closely observed by

a large class of men who are at-  
 tempting to do business in America.  
 The spasmodic advertiser is a man  
 of no particular nationality and re-  
 sults like the results of all other spas-  
 modic efforts are never satisfactory.  
 The question of cost so largely ob-  
 structs the range of vision that the  
 question of profit is entirely lost to  
 sight.

That judicious advertising pays is  
 not a debatable question and the  
 \$100,000,000 spent in America last  
 year, for various kinds of publicity,  
 is proof positive that American busi-  
 ness men have solved the question  
 that it pays.

The man who attempts to do busi-  
 ness today without advertising is in  
 a class by himself, and sooner or  
 later the place that he occupies will  
 be filled by a more enterprising suc-  
 cessor. The age is wonderfully pro-  
 gressive and there is no disposition  
 to wait for the man who disregards  
 all precedent, and attempts to stem  
 the tide of progress.

There are more buyers with more  
 money to spend in America today  
 than at any time in the history of  
 the country, and they are spending  
 it with people who advertise.

An old gentleman from Walworth  
 county farmer is the experience of  
 day to buy a buggy and two suits of  
 clothing. He said that he could save  
 \$10 on a \$100 buggy, and enough on  
 the clothing to pay expenses. He  
 bought of a department store and  
 mail order house. The buggy was  
 ordered for him from an eastern  
 factory at a price which any dealer  
 would be glad to duplicate. While  
 any clothing store in the country  
 could have saved him money on his  
 clothing. Why did he go to the city?  
 For the same reason that thousands  
 of other customers go, merely, be-  
 cause they are attracted by persis-  
 tent advertising on the part of Chi-  
 cago merchants.

If every line of business in Jans-  
 ville was kept before the people con-  
 stantly for a year with regular prices  
 quoted, the mail order business so  
 far as Rock county is concerned,  
 would fall off fifty per cent. This  
 statement may seem a little extra-  
 vagant but it is true to the letter.  
 The experience of the Walworth  
 county farmer is the experience of  
 every man who turns himself loose  
 in a large city in a search for bar-  
 gains. The small merchant never  
 feels quite so small as he does  
 when he visits the city market,  
 and the retailer buyer is so small  
 that he is completely lost in the  
 shuffle.

The place for the retail buyer is  
 the home market, and he will al-  
 ways patronize it when convinced  
 convincing belongs to the merchant  
 and if he will take a mail order  
 offered in his line at a reasonable  
 profit, if not, he needs to employ  
 a buyer.

The two questions, "What does  
 it cost?" and "Will it pay?" occupy  
 a larger field than the advertising  
 arena. They are important questions  
 and yet both are ignored by many  
 people.

There is an army of young men  
 who blunder along into life, wast-  
 ing energy without regard to re-  
 sources, who never consider the  
 question, "What does it cost, and  
 "Will it pay?"

The first drink that a boy takes  
 may cost him a nickel. The price  
 seems inconspicuous but the ac-  
 cumulation of these small costs, and  
 the waste of time and effort, and  
 the failure to write across  
 every page of the future.

The first game of cards played for  
 money may be for a stake that will  
 never be missed, and the cost goes  
 on until character and reputation  
 are gone, and nothing left but shattered  
 existence.

The first dollar that a young man  
 purloins from his employer may be  
 replaced the next day, but the cost  
 means irreparable loss.

There are thousands of girls who  
 lead a butterfly life, care free ignor-  
 ing the laws of health, and dellant  
 of home restraint, who never devote  
 a thought to either cost or profit. The  
 account of life is so badly overdrawn  
 that every resource is exhausted, and  
 when the demands of womanhood  
 claim recognition there is no re-  
 sponse.

There is a multitude of workmen,  
 ready to strike at the drop of the  
 hat who never ask a question.  
 "What will it cost, and What will  
 it pay?" The man who possesses  
 the ability to earn \$600 a year, is a  
 \$10,000 capitalist. Every day that he  
 is idle he loses the interest, and like  
 all other capital, the loss is never  
 made good.

If he cultivates this habit of volun-  
 teering idleness until he reaches the  
 age limit, the principle, as well as  
 the interest is soon absorbed, and  
 he becomes a dependent.

It is well for the country that a  
 majority of the people have some

regard for both, cost and profit, and  
 that the question, "Will it pay" is  
 considered of supreme importance.  
 Insurance statistics disclose the  
 fact that 10,000,000 policies are in  
 force in the country, which means  
 that more than half the population  
 are beneficiaries. The policy hold-  
 ers have settled the question that it  
 pays, without allowing the question  
 of cost to interfere.

It costs something to be honest,  
 and yet it is estimated that 95 per  
 cent of the people have discovered  
 that it pays.  
 Will it pay is the question that  
 every young man should consider.  
 It will keep him from becoming a  
 drifter and will save him from  
 wreckage.

**PRESS COMMENT.**  
 El Paso Herald: Autos are just  
 about as fatal as ever, but no longer  
 being novelties they do not attract  
 so much attention except from the  
 immediate victims.

Oshkosh North-western: Some  
 girls have mistaken the idea that

 standing by the height of the heels  
 she wears.

Chicago Record-Herald: Michigan  
 now has a population of 2,530,016.  
 That's a grand state. It is just  
 about Chicago's size as far as popu-  
 lation is concerned.

Buffalo Evening News: The more  
 clearly men see who is behind Par-  
 ker the more they are determined to  
 shun him and give him such a beat-  
 ing that even Bryan may have good  
 cause for sympathy.

Milwaukee Sentinel: As we expect-  
 ed, Gov. La Follette's Eau Claire  
 clearly indicated that he thinks it  
 is the corporations and not the state  
 administration that are on trial.

La Crosse Leader-Press: It might  
 be suggested, Mr. Postmaster Gen-  
 eral Payne, that postage stamps to  
 be used in state business might prop-  
 erly be purchased at various points  
 about the state, instead of exclu-  
 sively at the Madison postoffice.

Green Bay Gazette: The Demo-  
 cratic editors of the state are plan-  
 ning to organize a state association  
 at Oshkosh during the state conven-  
 tion. Nearly all the newspapers of  
 the state are now organized with  
 the exception of the Free Press,  
 and that is badly disorganized.

Milwaukee Journal: At Kemper

 nement district, seeing the green  
 crosses for the first time in her life  
 fell down and kissed it. Could any-  
 thing be more pathetic? And yet  
 right here in Milwaukee fresh-air  
 nets must be curtailed for want of  
 funds!

Evening Wisconsin: The fact  
 that the postmaster of Des Moines  
 has asked permission of the post-  
 office department to appoint women  
 letter carriers should warn physical  
 culture instructors away from the  
 Iowa city. A place that has women  
 who are strong enough to carry the  
 fat leather bags of Uncle Sam's car-  
 riers needs no developers of muscle.

 thorities are taking steps to move the  
 school house so as to give a prom-  
 inent citizen an opportunity to open  
 a saloon on his premises. The  
 Minneapolis Times says that "ques-  
 tioning the removal of the school house  
 would make no very great difference  
 in the educational standards of Ply-  
 mouth town, but it would not be a  
 pleasant advertisement for Minne-

## Lower Rates On Money Orders

The high rates charged for money orders by the  
 Express Companies and the Post Office have recently  
 brought about the competition of Banks in that field  
 throughout the United States. The money orders  
 issued by banks are the uniform Bankers Money Orders  
 of the Bankers Money Order Association of New York;  
 whose orders are payable throughout the United States,  
 Canada, Mexico, The Hawaiian Islands, and Cuba,  
 abroad, in the United Kingdom, Continental Europe,  
 Northern Africa, and the Far East (China, Japan,  
 India, Australia, and the Philippines.)

The rates on these money orders are lower than  
 the Post Office and Express rates. At the same time  
 the money orders are the safest means of sending  
 money through the mail as receipts are given with the  
 orders, for which duplicates are issued without any de-  
 lay or inconvenience in case the original order is lost.

 come only a question of a comparatively short time  
 when the Money Order business of the country will be  
 done by the Banks where payment is not refused on  
 money orders through lack of funds as is only too fre-  
 quently the case with the Express and Postal Money  
 Orders.

## BISHOP McCABE GAVE THE TALK

NOTED METHODIST DIVINE DELIVERED FINE ADDRESS.

## THE EPWORTH LEAGUE MEET

Opening Sessions of the Annual Gathering Were Held Yesterday Afternoon and Evening.

At the Methodist church yesterday afternoon the annual meeting of the Epworth League of the Janesville district opened its three-day session. The delegates had gathered from all parts of the country and the program was most interesting. The address of the afternoon was delivered by Bishop W. E. Warne, of India. His talk was full of interest to his listeners and the picture he drew of India and the church work there was exceedingly interesting. Bishop Warne is one of the leading bishops of the Methodist church and is a most able and eloquent talker.

The evening session opened at seven thirty with devotion by Rev. McChesney. The song service followed composed of a song by the church choir and one selection by the orchestra. Mr. H. F. Nott and Miss Elia Nott sang a duet accompanied by Miss Tassie Nott on the piano entitled "Walk Beside Me, O My Savior." President H. C. Logan, of the Epworth League then introduced Bishop McCabe.

The address. Bishop McCabe is one of the most famous speakers who has ever spoken before a Janesville audience. He is not only a lecturer of note but a churchman of distinction. He came to Janesville from Marinette where he has just delivered a delightful lecture before the summer chautauqua there. He holds his audience from start to finish with his fine descriptions and stories and appears to be so jolly and good natured at all times that he carries his listeners right along with him in a remarkable manner.

Sometimes a Good Thing. Bishop McCabe electrified his audience last evening by saying that sometimes war was a good thing. His hearers were in a way prepared for this announcement owing to the fact his opinions on this subject have been aired generally during the past few days in the press of the country. To show how war could be applied to the civilization of the world the Bishop demonstrated his statement with bits of Austrian, French and Mexican history and said one of the most important instances was right before us in the American Indian. He referred to the war between Russia and Japan as an illustration before our eyes today and how the world of the great unknown east was being civilized and the attention of all Christendom was being attracted to the vast field hitherto but feebly covered.

Tells of League's Work. The Bishop then told of the work of the Epworth League in Mexico and the vast amount of good it has accomplished in that country. He described the League's work in South America and in Russia in a most delightful manner. While the address last night was more on the church work than otherwise Bishop McCabe found many opportunities to tell some excellent stories which were well received. After his lecture was over the Bishop sang a solo playing his own accompaniment. Then the members adjourned to the church parlors where an informal reception was held.

Social Hour. Here a most enjoyable social hour was experienced and light refreshments were served by the young ladies of the League. The parlors had been tastefully decorated with red and white, the Epworth League colors, and were well filled with young people who thoroughly enjoyed the gathering.

## REVEREND HARE SPEAKS TONIGHT

And Bishop Frank W. Warne of India, Addresses Epworth Convention Sunday Night.

The Epworth League meeting this evening will open with songs of praise and special music at the Central Methodist church. Following these there will be devotion, led by Rev. C. L. Andrews. At eight o'clock an address will be delivered by Rev. T. W. Hare, of Milwaukee, and he will be followed by Rev. T. W. North, of Milton. The program for tomorrow's services is as follows:

Sunday Forenoon.  
6:00—Inspiration Service—Miss Nelson, Lake Bluff, Ill.  
9:30—Love Feast—Rev. J. H. Tippett.  
10:30—Convention Sermon—Rev. F. W. Sheets, Rockford, Ill.  
Sunday Afternoon.  
2:00—Men's Meeting at Y. M. C. A.  
3:00—Women's Meeting—Miss Sunderland.  
4:00—Children's Meeting—Miss Nelson.  
6:30—Open Air Service of Song.  
7:00—Vesper Service.  
8:00—Sermon—Bishop Frank W. Warne.  
Closing Monents.

## SOCIAL DEMOCRATS CONVENE TONIGHT

To Nominate a Full County Ticket—Senatorial and Congressional Conventions Next Week.

Social democrats held their caucus and elected delegates last evening to the county convention which will be held at the city hall assembly room tonight. Delegates will be here from Beloit and a full county ticket will be nominated. The congressional and senatorial conventions will be held here next Saturday night. A nominee will be put up for every office, from congressman down.

## TWO RUNAWAYS THIS FORENOON

Team and a Single Horse Tried to Stir Up Things on Milwaukee Street.

There were two exciting runaways this morning. A horse belonging to George Tallman made a wild dash up South River street and onto Milwaukee street and after striking the vehicle against a post, which turned him square around, fled back onto river street where he fell down. The rig was considerably damaged. A team belonging to Mr. Wright who lives on Milton avenue and attached to a heavy wagon, had started on a romp to the eastward on Milwaukee street when the tongue dropped out from the neck yokes and struck Tarrant & Osgood's wagon. One horse tripped and fell and the other jumped over him and commenced kicking, when bystanders came to the rescue. The Tarrant & Osgood wagon was badly damaged.

## MARQUETTES ARE TO PLAY SUNDAY

Wee Willie McGill is in the Box for the Visitors—Excellent Game Promised.

When Wee Willie McGill, of national league fame steps into the box for the Marquettes tomorrow at Yost's Park he will be confronted by a sturdy lot of Janesville players backed by an enthusiastic audience. Broughton and Atkins will be at the points for Janesville and the crowd that go to the park can take advantage of the double car service every half hour with the admission fee at a quarter. That it will be a hot game is not doubted by those who know the Marquettes and have watched the local team play this season.

## THE WEATHER.

Temperature last 24 hours taken from U. S. registered thermometer at Helmsstreet's drugstore: highest, 80 above; lowest, 61; ther. at 7 a. m. 63; at 3 p. m. 80; wind, south, sunshine.

## ANSWERED DEATH'S SUMMONS TODAY

Mrs. Catherine Brown and Little Teresa Butts, Claimed by Death.

This morning at 7:15 o'clock, Mrs. Catherine Brown died at the home of her niece, Mrs. John Weiss, 253 Ravine street, after a short illness with apoplexy, aged 73 years. The deceased came to Janesville about two months ago to make her home with Mr. and Mrs. John Weiss. The funeral services will be strictly private and will be held at the home of Mr. and Mrs. Weiss, 253 Ravine street, Monday morning at 9 o'clock. Rev. J. A. M. Richey will conduct the services. The interment will be at Oak Hill cemetery.

Teresa Butts, the one-month-old infant daughter of Mr. and Mrs. William C. Butts, 162 Highland Ave., died at the home of her parents last evening after a short illness. The funeral services will be held Sunday afternoon at 2 o'clock from the family residence.

Mrs. Anna Jiru. Funeral services over the remains of the late Mrs. Anna Jiru were conducted this morning at 5 o'clock by Rev. W. A. Gobel at St. Mary's church. The interment was at Mt. Olivet cemetery. The pall bearers were: Anton Pashl, Philip Reus, Wenzel Prox, John Prox, Alfonso Husker, and Frank Schneider.

Annie E. Strang. After full four-score years of life with its varied experiences one of the oldest settlers of Rock county was laid to rest in Grove cemetery at Footville on the afternoon of Thursday, Aug. 18th.

Annie E. Spoon was born in Germantown, Pa., in 1824. After some years of residence there and in the state of New York, she came with the other members of the family to Rock county, Wis., in 1846. She was married to Jacob Strang, in 1847. Eight children were born to them, three of whom died in infancy. Robert passed away in the prime of life in March, 1900, while four remain to mourn as faithful and devoted mothers as children have ever known. These are: Louisa M. Sawtelle, of Williams, Oregon; Silas A. Los Angeles, Cal.; Solomon J. Footville; Minnie T. Barlow, Los Angeles. Besides her children six brothers and sisters remain. These are: Samuel, Solomon, George and John Spoon, of this city; Conrad Spoon, Richland Center, Wis.; Abram Spoon, Breckford, Wash.; Elizabeth Strang, Charles City, Ia.

To few persons is it given to serve their generation tirelessly and so long as to this wife and mother. All who knew her honored her and her members of her immediate family are not alone in their mourning. Early in life Mrs. Strang identified herself with the German Lutheran church but after she came to Wisconsin united with the Congregational. Though never conspicuous in the active affairs of the church her life was consistent and above reproach. She rightly made her home the sphere of her greatest activity and service.

Large numbers of people attended the funeral services at the Methodist church in Footville, conducted by Rev. John Lagg, of Milwaukee, assisted by Rev. E. D. Allen, the pastor.

Boston Clock Over 100 Years Old.

The clock upon the organ loft in the old North church of Paul Revere fame is more than 100 years old. It was cleaned and repaired a quarter of a century ago by a Boston watchmaker, whose only charge for the work was the privilege of engraving his name upon the back of the ancient timepiece.—Boston Record.

## "GIRL FROM DIXIE" SCORED A BIG HIT

Large Audience at Myers Theatre Was Delighted with the Opening Attraction.

When a Janesville audience remains to applaud after the curtain has been rung down for the last time of a performance, it may be taken as a certain indication that the performance and their vehicle have scored a big hit. The ovation given "The Girl from Dixie" company and the smiles which quivered on the faces of the spectators long after the orchestra had finished its "recessional" march, spoke eloquently last evening of the people's appreciation of a splendid entertainment.

The comedy opened with a merry school room scene which served to introduce the delightful little prima donna, Genevieve Day, in the role of "Kitty Calvert," the eccentric and whimsical "Ludwig Regenbogen," of D. L. Don, the oracular "Squire Mink" of Thomas J. Keogh, a half score of other characters needed by the "plot," and a chorus that could really sing. The duet by Thomas Tarnest and Olga May "The Lovers" A. B. C." and Miss Day's "Mary from Maryland," called forth the first enthusiastic responses from the audience.

The first scene of the second act presented the vine clad wall of a girl's seminary, which permitted the chorus to appear in sombre caps and gowns and introduced a male quartette of collegian serenaders. The quartette responded to three encores. The second scene opened with a brilliant ball-room scene at West Point and gorgeous tableaux alternated with comedy. The playhouse and Manager Myers received many congratulations. The orchestra was assisted from Rockford.

KOSHKONONG WOMAN COMMITTED SUICIDE

Mrs. Oscar Aaby Hung Herself From Ladder in Hay-Shoot of Saunderson's Barn.

In the hay-shoot of Stephen Saunderson's barn near Koskhonong the dead body of Mrs. Oscar Aaby was discovered after a long search the forepart of this week. She had taken a strip of cloth about three inches wide, wrapped it around her neck and tying the ends to the ladder leading to the loft, had swung herself, into eternity.

For some years past friends of the unfortunate woman had believed her to be slightly deranged, though her mental malady appeared to be of a mild and harmless type. Aaby and his wife had been living in a tenant house on the Saunderson's farm, the husband working by the day for farmers in that vicinity. They had intended to visit Sweden this fall but the recent disaster to the Norge, in which so many of their countrymen lost their lives, changed their plans and is believed to have preyed on Mrs. Aaby's mind. She was sixty-two years of age and leaves a family of grown-up children consisting of four sons and two daughters.

## WERE JAILED FOR STONING CAR

PERCY NORTHROP AND WILLIAM LOCKE ARRESTED.

## HEARING NEXT WEDNESDAY

Young Men Must Answer to a Very Serious Charge—Lock-Up Was Full Today.

On complaint of Conductor Frank Burlbank, of Interurban car No. 9, two young men about twenty-five years of age, giving their names as Percy Northrop and William Locke, were arrested last evening charged with hurling half-pound rocks at the vestibule of the car. The trouble commenced shortly after the six o'clock car had left Beloit. The two men, who were passengers in the car, first claimed that they had paid their fare and then averred that they hadn't any money. Conductor Burlbank says that both appeared to be intoxicated. After the car had started at the first station and Conductor Burlbank, with the assistance of Conductor Samuel Powers and Motorman Robert Wilson, had put them off, they apparently found money to pay their way and insisted on getting aboard again. On promise to behave themselves they were permitted to do so. However, Conductor Burlbank alleges that they had no sooner gotten into the car again before they began abusing him and his companions and inviting them to fight.

Row at Happy Hollow. At Happy Hollow they were forcibly ejected and the conductor alleges that at the time they were using profane and obscene language in the presence of the passengers, among whom were several ladies. It is further alleged that, having been put off the car, these men began hurling rocks at the road vestibule and that one of these, had it not glanced by a piece of woodwork, would have gone the full length of the coach. The two young men boarded the next car for Janesville where they fell into the hands of Officers Brown and Fanning. In municipal court this afternoon their hearing was set for Wednesday and bail was fixed at \$500 each.

Jail Was Full. The city lock-up was filled to overflowing today. Cell A was occupied by two suspicious characters giving their names as W. H. Chapman and Charles Prima who had been haunting the Beloit fair and were traced to this city. Frank Connors, of Janesville; W. T. Smith, of Chicago, and an aged and regular visitor from Breadhead occupied Suite B. Michael Mulcairn and James Riley each pleaded guilty to drunkenness this afternoon and were given five days at hard labor in the county jail with an additional fine of \$5 and costs, or ten additional days. William Booth, of St. Louis, a man totally blind, who was at one time a switchman on the Northwestern at Escanaba, Mich., was released, having applied for a night's lodging.

First Aid to the Injured

BADGER DRUG CO

Recommend PARACAMPH as a Most Reliable First Aid to the Injured.

Many people in this city are injured daily, and oftentimes serious results follow simply because the injury was not properly cared for in the beginning. It is not always possible to secure a physician at a moment's notice. Many deaths are caused by negligence and delay. Blood-poisoning often results from bad cuts, gun shot wounds, etc., because the wound is not properly treated promptly. Paracamp is a simple, inexpensive remedy which every family should keep in their homes every day; every factory, manufacturing plant and large institution should keep Paracamp near at hand. It is conceded by medical authorities to be a most reliable, relieving, soothing and healing agent. It not only stops pain quickly, but it heals wounds without leaving ugly scars and absolutely prevents blood-poisoning.

Paracamp is truly a home remedy and every bottle is guaranteed to be pure, safe, clean, and to do exactly what is claimed for it. If you do not keep Paracamp in your home, get a bottle today. It is just as necessary in your home as good soap and water.

You will find it excellent for quickly relieving Rheumatism, Neuralgia, Sore, Tired Feet, Skin Troubles, Catarrh, or any form of Swelling or Inflammation.

Sold everywhere in the U. S. in all good drug stores. The Paracamp Company, Louisville, Ky., U. S. A.

## ...Forty Years Ago...

Janesville Daily Gazette, Saturday, Aug. 20, 1864.—Runaway.—A horse attached to a wagon ran furiously down Main street this morning and when in front of Burback's auction store the wagon came in contact with the wheel of another rig standing near the sidewalk, whereby the later's axle-tree was badly bent up. We understand that the gentleman named Dame was somewhat injured by the concussion.

A Good Thing to Do.—A number of ladies connected with the Baptist Society in this city have been engaged this week in cushioning all the unfinished seats in the church. This is a good thing, to do as it gives a house of worship an air of comfort which bare seats and hard boards do not impart.

Good.—We understand that major

May of this city has furnished a representative recruit for the army, as has also Dr. Taggart of Beloit. A lady of that city has authorized an agent to procure her a representative. Go on with the good work.

Rev. M. Goodspeed will lecture on gauching tomorrow evening at the Baptist church.

Accident.—A little son of Mrs. Osborn living some four miles out of the city last evening fell down stairs and fractured her elbow.

Good For The Town of Center.—Up to yesterday the town of Center in this county had twelve substitutes in the army. We very much doubt if any other town in the district has done as much in that particular direction.

# THE COMMERCIAL VALUE OF A BUSINESS EDUCATION

Business is no longer a speculation. In the advanced age in which we live every branch of any kind of business is entrusted to men and women who KNOW HOW. Business men are too busy to train brains. They want trained brains, of course, but they must be TRAINED. The country naturally is flooded with men and women who are posing as experts and who do not succeed, simply because they do not merit success. Looking at the successes of the present day they present an indisputable argument in favor of Trained Brains. It does not matter what vocation in life you choose, or have thrust upon you, a first-class business training is absolutely necessary for your success. Our system of business education lays the corner stone, furnishes the fundamental principles for success in life. We do not claim that a course in our institution will fit you to head a large commercial enterprise. It is simply the opening wedge which, when properly hammered in by dint of hard work on your part, will eventually be the means of your obtaining success according to your individual ability. Our Fall Term opens September 6th, and for the benefit of men and women who are employed during the day we are opening evening classes. Your studying with us means your qualifying for a better position than you now hold or an increase in your efficiency in your present position, and consequently an increase in your earning power. The subject is worth investigating.

## THE MERCHANT

Appreciates and willingly pays for expert help. It is also essential for a man engaged in any mercantile proposition to have a working knowledge of any and all branches of his business. A merchant who is a good office man KNOWS when his work is being done right. That knowledge is of value.

## THE FARMER

The farmer is in vital need of business training. Running a farm is a business and the man who makes it pay is the man who uses business system in marketing his crops.

Here is where the man with the business education runs his farm from his desk, enabled to compete and deal with business men in a business way. AND IT PAYS HIM.

## The MANUFACTURER

Needs a technical knowledge of business as practiced by men with whom he deals. It saves him falling into pitfalls leading to bankruptcy.

Inventors innumerable have lost the benefit of the financial profits simply because they were not versed in business usages and let it slip through their fingers.

## THE DOCTOR

There is no reason why a doctor's business should not be systematically conducted just as any business enterprise. A thorough knowledge of our system would be found invaluable to a physician. Doctors who combined a knowledge of medicine and business are among the striking examples of business success of the century—notably Dr. Pierce, Dr. King and many others. See the point?

## THE LAWYER

No one can deny the necessity for an up-to-date lawyer knowing business thoroughly. It affords him a keener insight into points of argument, it gives him a distinct advantage over his adversary, and in all instances amply repays the time taken to study it. Is this worthy of your thought?

## THE WOMAN

Whether in the office, the home, or in professional work, finds business knowledge synonymous with success. Social enterprises that prove successful are planned largely upon a business basis. No station in life which a woman can occupy but what will be improved by a knowledge of business.

Better clerks, better wives, better mothers, better house-keepers.
